1. A train of 11 Polish locomotives left Strasburg (N 54/U 96) for Fuerstenwalde (N 53/V 33) at 2:20 p.m. on 31 July 1950. The locomotives are to be collected in Fuerstenwalde. \*

- 25X1 \* [REDACTED] Comment. The shipment is probably connected with the return of  
foreign locomotives to the countries of their origin. It is therefore  
25X1 believed that the Polish locomotives will go from Fuerstenwalde to Poland.  
[REDACTED] about 1,129 such foreign-owned locomotives  
were in the Soviet Zone of Germany in March 1950. Most of them were un-  
serviceable because of war damage. The locomotives which are still service-  
able are being gradually returned to their home countries. As an example,  
26 and 18 locomotives were returned to Hungary in February and March 1950,  
25X1 respectively. [REDACTED]
